

ENDURANCE SAE 10W-30

DATA SHEET

Description

ENDURANCE SAE 10W-30 is a mineral high-performance low-friction engine oil of viscosity class SAE 10W-30, whose base oil composition combines the advantages of base oils of modern refinery technology with those of synthetic components. The base oil composition and shear-stable VI improvers ensure that the specified viscosity class is maintained over the entire service life of the oil. The ageing process of this engine oil is well controlled at the maximum permissible oil residence times. Antioxidants and cleaning additives prevent deposits, pistons and valves remain clean and the formation of cold sludge is prevented. Lower friction losses in the engine result in significant fuel savings and therefore lower environmental impact. Lower evaporation losses prevent valve deposits, sludge and varnish and ensure clean pistons and piston ring grooves. ENDURANCE SAE 10W-30 is recommended for passenger car gasoline and diesel engines, also for turbo and catalytic converter versions.

Specification

ACEA A3/B4

API SL/CF

Application recommendation

Jeep

MB 229.1

Toyota

VW 505 00

Product attributes

Attribute	Method	Unit	Value
Density 15°C	DIN 51757	Kg/m ³	860
Viscosity 40°C	DIN 51562-1	mm ² /s	67,4
Viscosity dyn. -25°C	DIN 51377	mPa*s	4680
Viscosity 100°C	DIN 51562-1	mm ² /s	10,7
Viscosity index	DIN ISO 2909		151
TBN	DIN ISO 3771	mgKOH/g	10,5
Pourpoint	DIN ISO 3016	°C	-42
Flammable COC	DIN ISO 2592	°C	230

The expiration date is 3 years after production date under the permission that the product is stored in a dark, dry and cool place. The given data are typical data. Please observe instructions! Our data sheets and prints should advise in all conscience. The content is regarding to treatment and application an unenforceable obligation as we have no bearing on it. Modifications which result in improvement are reserved.
