

## PRODUCT INFORMATION

### P.C. ULTRA PROTECT 5, 250 ml

Art. No. 60055

**PROFI-CAR ULTRA PROTECT 5** has important properties to protect the injection and exhaust system of the vehicle. The octane number of the gasoline is increased, which enables a smoother engine running and additionally more power is available. Valves, injection system and exhaust system are protected from contamination and the catalytic converter is cleaned.

**PROFI-CAR ULTRA PROTECT 5** is one unique product for the whole fuel system.

#### Properties

- Increases octane depending on fuel up to 8 points
- Dissolves and disperses deposits and residues
- Protects valve seats from excessive wear
- Ensures smooth combustion, improves exhaust gas value.
- Selected combination of active ingredients optimizes engine performance and increases operational reliability
- dehydrating
- corrosion protection

#### Areas of application

For fuels with low octane number or for engines with increased increased octane requirement. For the protection of valves/valve seats with unleaded gasoline, even if the valves/valve seats require leaded gasoline. For malfunctions at idle, part load and gas exchange due to deposits on injection nozzles, valves and in combustion chambers. Prevents corrosion damage.
