

## PRODUCT INFORMATION

### **P.C. DIESEL SYSTEM CLEANER, 250 ml**

Art. No. 60112

**PROFI-CAR DIESEL-SYSTEM-CLEANER** contains selected combinations of active ingredients. These dissolve and disperse deposits and residues such as oil carbon and soot, optimize engine performance, increase operational safety. Ensures the lubricating effect of the injection pump with low-sulfur diesel. Can be used in all diesel engines, including new common rail and pump jet engines.

#### **Properties**

- Cleans the entire system from the tank to the combustion chamber
- Prevents deposits in the injection system and on the injection nozzles
- Keeps the engine clean, burns less pollutants, consumes less diesel and is therefore more environmentally friendly
- Cetane number increase improves cold start behavior and reduces smoke generation
- Reduces wear on injection systems and pumps due to lubricant additives, especially with low-sulfur diesel
- Corrosion protection and defoaming effect
- dehydrating

### **Areas of application**

Improves starting behavior and full-load propulsion. Increases operational reliability with low-sulfur diesel. Ensures uniform jetting pressure and smoother idling. Reduces smoke development. In the event of problems with running quality, cold starts, gas changes or poor exhaust gas values. Prevents corrosion damage.

### **Application**

Add one can to the tank filling. Do not run the tank completely empty. Sufficient for approx. 60 liters of fuel. Add before refueling.

The expiration date is 3 years after production date under the permission that the product is stored in a dark, dry and cool place.

Our data sheets and prints should advise in all conscience. The content is regarding to treatment and application an unenforceable obligation as we have no bearing on it. Modifications which result in improvement are reserved.
