

## PRODUCT INFORMATION

**P.C. DPF POWER CLEANER, 250 ml**

Art. No. 60142

**PROFI-CAR DPF POWER CLEANER** contains selected combinations of active ingredients. These reduce soot emissions, reduce exhaust fumes and improve engine performance. Dissolves and disperses deposits and residues such as oil carbon and soot. Burns soot particles in DPF filters. Increases operational reliability. Can be used in all diesel engines, including new common rail and pump jet engines.

**Properties**

- Cleans the entire system from tank to combustion chamber
- Reduces emissions
- Improves the storage stability of the diesel
- Reduces wear on injection systems and pumps through lubricant additives, especially with low-sulfur diesel
- Prevents deposits in the injection system and on the injection nozzles
- Keeps the engine clean, burns less pollutants, consumes less diesel and is therefore more environmentally friendly
- Cetane number increase improves cold start behavior and reduces smoke development
- Corrosion protection and defoaming effect
- Reduces soot particles through afterburning in DPF filters
- dehydrating

**PROFI-CAR** is a international trademark of **PROFI-TECH GmbH**

**Areas of application**

For diesel vehicles with higher mileage that form more soot. For tractors, trucks and diesel forklifts. For poorer cold start and idling fluctuations. Increases operational safety with low-sulfur diesel. When the DPF warning lamp lights up or for prevention.

**Application**

Add one can to the tank filling. Do not completely empty the tank. Sufficient for approx. 60 liters of fuel. Add before refueling.

The expiration date is 3 years after production date under the permission that the product is stored in a dark, dry and cool place.

Our data sheets and prints should advise in all conscience. The content is regarding to treatment and application an unenforceable obligation as we have no bearing on it. Modifications which result in improvement are reserved.
